This Three Year Year Plan was adopted by Central Hawke's Bay District Council on 13 June 2024 in accordance with the Local Government Act 2002.

This plan would normally be for 10 years. Cyclone-affected Councils have however been given special legislative relief to instead focus on three years through the Severe Weather Emergency Recovery Legislation Act 2023, as we deal with the uncertainty and recover following Cyclone Gabrielle.

It is based on the Council's best information and planning at the time it was developed. If circumstances change, the Council may have to change its intentions.
